Hello,

My name is Hasset Dejene, a third-year software engineering student at AAiT. I love web development and user interface/user experience (UI/UX) designing i like futuristic and minimalistic looks which are simple yet beautiful. i'm a big fan of apple and their designs I find blurred backgrounds and curved corners really appealing.

Let's Explore my Portfolio!

I am proficient in coding languages such as Java and Python, and I am particularly interested in the field of data analysis within cybersecurity. I believe that these areas hold significant potential for the future and align with my interests and skills. Additionally, I really enjoy playing the guitar.

```
35
36     self.logger = logging.getLogger()
37     if path:
38         self.file = open(os.path.expanduser(path))
39         self.file.seek(0)
40         self.fingerprints.update(pickle.load(self.file))
41
42     @classmethod
43     def from_settings(cls, settings):
44         debug = settings.getboolean("debug")
45         return cls(job_dir=settings["job_dir"],
46                    settings=settings,
47                    debug=debug)
48
49     def request_seen(self, request):
50         fp = self.request_fingerprint(request)
51         if fp in self.fingerprints:
52             return True
53         self.fingerprints.add(fp)
54         if self.file:
55             self.file.write(fp + "\n")
56
57     def request_fingerprint(self, request):
58         fp = self.request_fingerprint(request)
```

Programming Languages

- Java
- Python
- C++
- JavaScript
- TypeScript

General Skills

- Problem-solving and analytical thinking.
- Team collaboration and communication.
- Agile and Scrum methodologies.
- Project management.

Tools

- Git
- VS Code
- Docker
- AWS
- Figma

Frontend

- React
- JavaScript
- TypeScript
- HTML/CSS
- Tailwind CSS

Backend

- Node.js
- Express
- MongoDB
- SQL
- REST APIs

API Development

Designing and implementing RESTful APIs and GraphQL services for seamless integration.

Backend Development

Building robust server-side applications with Node.js, Express, and various databases.

Security Implementation

Implementing secure authentication and authorization systems to protect your applications.

Web Development

Creating responsive and dynamic web applications using modern technologies like React, Next.js, and Vue.js.

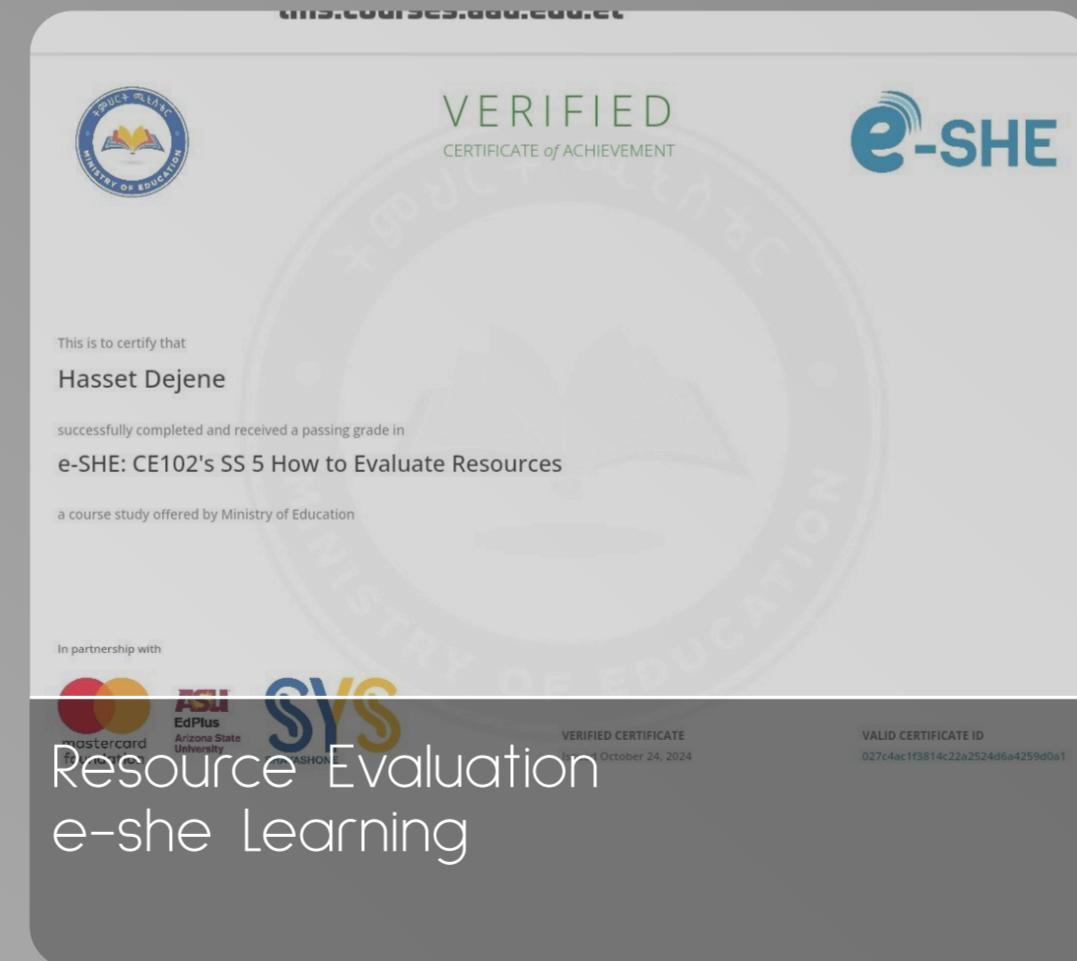

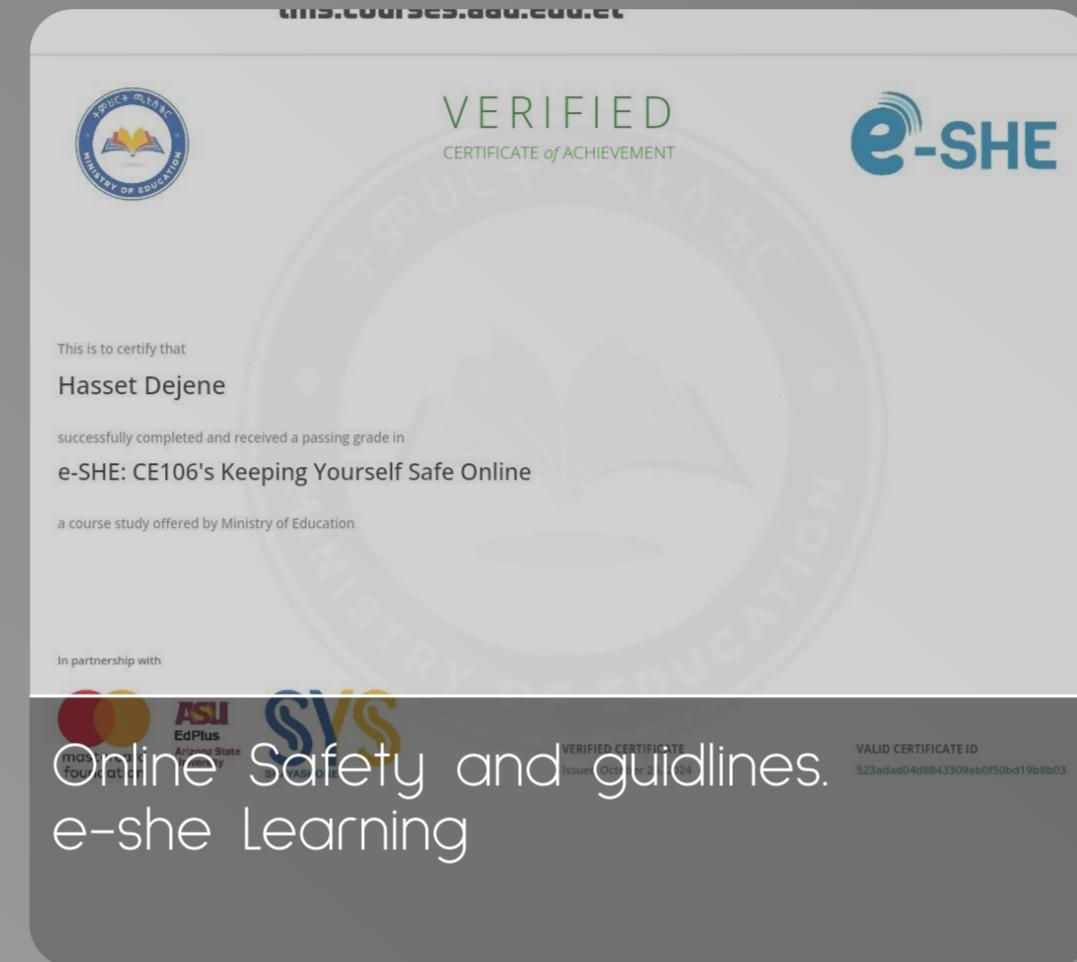

Mobile App Development

Native app development (Swift, Kotlin). Cross-platform development with Flutter or React Native. X code.

Database Management

Database design and optimization. Data modeling and schema development. SQL and NoSQL database solutions (MySQL, PostgreSQL, MongoDB).
